Subject: Date of expression – Revision of RDA 6.10.1.1 and 6.10.1.3

DNB thanks EURIG for preparing this proposal. DNB agrees with this proposal but also wants to indicate, that applying this revision (optional addition) could cause major labor input, especially in the case of music compilations. We support the textual revision suggested by LC in their response to this proposal.

Furthermore we suggest a rewording of the sentence "A type of date that is not listed first should *not* be used *unless* all the preceding ones are not known with certainty" (page 3 of 5) into:
"A type of date that is not listed first should *only* be used in case all the preceding ones are not known with certainty."
