

To: Joint Steering Committee for Development of RDA
From: Dave Reser, LC Representative
Subject: Create RDA 2.17.1.4, *Note on Identifier for the Manifestation*

Thanks to ALA for the proposal to create this specific type of note, as a sub-type of Note on Manifestation (where we presume catalogers are recording this information now). The additional granularity for a specific Note on Identifier for the Manifestation seems warranted, and allows for the aggregation of the identifier element and any details about that identifier.

Other than related changes to the element analysis table, registry, etc., we ask whether it would be appropriate to add a paragraph at 2.15.1.4 (Recording Identifiers for Manifestations) that would guide catalogers to the new note.

LC reviewers have provided the RDA Examples Editor with additional comments regarding examples.
