Subject: Additional instructions in Chapter 27 for Structured Descriptions of the "Contained in" and "Container of" Relationships

DNB thanks the American Library Association for this proposal. We agree to the proposed changes #1, #2, #3. We agree in principle to change #4 but 27.1.1.3.2.2 should provide more flexibility and not instruct the cataloguer to record each of the component parts. We prefer a solution that also allows recording only a selection of component parts.
