LRM/RDA/UNIMARC harmonization: an update #2

Presented and discussed at RDA in Europe Meeting, Sept 14th 2021

Prepared by Héloïse Lecomte (Abes, CfU)
Program

- Context:
  - PUC Action plan 2019-2021 & RSC Liaison
  - UNIMARC & entity cataloguing

- UNIMARC updates 2020, published: new fields for describing works and expressions

- UNIMARC updates 2021, to be published: relationships between works and expressions + main date of entity

- Upcoming in 2022:
  - Preparing manifestation records in UNM/B
  - URIs in UNIMARC
  - UNIMARC-LRM mapping
  - UNIMARC/A ontology
## Action plan
Name of Professional Unit: Permanent UNIMARC Committee

### Focus Area 2
UNIMARC Harmonization with IFLA LRM and new cataloguing codes

### IFLA Strategic Direction

2.3 Develop standards, guidelines, and other materials that foster the best professional practice

### Key Initiatives

### How will you communicate your activities and results?

New and updated fields will be integrated into UNIMARC text documentation; Existing UNIMARC Namespaces will be updated or a new one will be registered.

### How will you measure the impact of your activities?

Feedback information from Nacional UNIMARC committees and their representatives in PUC and through the regular questionnaire to UNIMARC users in national libraries.

### Identify other Unit(s) which may be interested in this Focus Area, or with which you could collaborate on projects/activities.

BCM Review Group; ISBD Review Group; Cataloguing section.

UNIMARC June 2021 updates: to be published on IFLA website

- Relationships between Works and Expressions:
  - LRM generic relationships (precedes, accompanies, inspiration, transformation...) already expressed through $5 pos. 2 (Specific Relationship Code for Works or Expressions)
  - More granularity needed to express the large number of relationships between Works and Expressions
    - Cf. RDA: many “Work to Work”, and “Expression to Expression” relationships (ie. analysis, imitation, abridged, opera adaptation, parodied, etc.)
    - Creation of subfield $p in Work and Expression related access points (A531, 532, 541, 542) + $2 to record the source of the vocabulary used in $p (ie. RDA, RDA-FR, or other reference source)

- Main date of entity:
  - Cf. RDA attributes: Date of Work, Date of Expression, Date of Birth...
  - Some dates are mandatory for entity disambiguation (ie dates of birth and/or death for homonyms)
  - **Creation of field A104:** Main date or time period associated with the described entity, chosen by the cataloguer in accordance with the cataloguing code, and which if present can be used to create the Authorized access point.
    - This new field is complementary to field A640, which allows the association of several dates of different types with an entity (ie. dates of residence, dates of activity, etc.)
Upcoming in 2022

- PUC 2022 meeting in May (back to the normal schedule)
- Preparing manifestation records in UNM/B:
  - Working Group to be launched
  - Mission: identify Work/Expression level data hiding in the 1-- block (coded data) in order to deprecate them, in the context of LRM/RDA entity cataloguing
- URIs in UNIMARC:
  - How to add a control subfield allowing to record a URI in any UNIMARC field?
  - Cf. $1 in MARC21
- UNIMARC-LRM mapping:
  - Mapping for Works and Expressions attributes and relationships under review by PUC members
  - To be published after validation
- UNIMARC/A namespaces in RDF:
  - publication in preparation, after UNIMARC/B ontology
