Extending RDA (briefly)

Gordon Dunsire

Presented to the RDA "pop-up" meeting, ALA Annual, Chicago, USA, 26 June 2017
RDA entities

Any RDA Thing: Covers all other types of entity

RDA refines LRM relationships as element sub-types (RDF sub-properties)

Adding entities

RDA entity \(\rightarrow\) RDA Toolkit chapter

Standard elements:
- Identifier of ...
- Name or title of ...
- Association relationships with other entities

Expensive!

Requires justification, use cases, etc.

RDA Toolkit files (+ Registry stuff)
Extending element sets

Element = attribute/relationship (designator)

RDA Element Set

RDA Element

Alternative label

Narrower element
Extending value vocabularies

- RDA Vocabulary
- RDA Term/Concept
- Narrower term
- Alternative vocabulary
