RDA in Finland

- Enquiry for European libraries about the plans concerning RDA (2009)
  Recommendations to include RDA in the standard portfolio
- Changes to the MARC21 formats to accommodate the encoding of RDA data
- RDA in the functional requirements specification for the next library system
- RDA Working Group within the National Library of Finland
- The National Steering Committee for the Description of Library Resources
  - Translation of RDA 2011
Since 2007 presentations have been given to inform all library sections about RDA

Participation in international cooperation is important to us
