The 3 x 2 grid – names/titles vs access points

<table>
<thead>
<tr>
<th>Person</th>
<th>Name of person</th>
<th>Preferred name of person</th>
<th>Variant name of person</th>
</tr>
</thead>
<tbody>
<tr>
<td>Access point for person</td>
<td>Authorized access point for person</td>
<td>Variant access point for person</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Work</th>
<th>Title of work</th>
<th>Preferred title of work</th>
<th>Variant title of work</th>
</tr>
</thead>
<tbody>
<tr>
<td>Access point for work</td>
<td>Authorized access point for work</td>
<td>Variant access point for work</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Manifestation</th>
<th>Title of manifestation</th>
<th>Title proper</th>
<th>Variant title of manifestation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Access point for manifestation</td>
<td>Authorized access point for manifestation</td>
<td>Variant access point for manifestation</td>
<td></td>
</tr>
</tbody>
</table>
Access point element pages

Organization of instructions for “Recording a structured description”

- * Vocabulary Encoding Scheme
- * String Encoding Scheme

- Basis of the access point
- Additions to the access point
- Data provenance
Access point element pages

Organization of instructions for “Recording a structured description”

* Vocabulary Encoding Scheme
* String Encoding Scheme

Basis of the access point

Additions to the access point

Data provenance

Name or title (Preferred name or preferred title for Authorized access point) *
Access point element pages

Organization of instructions for “Recording a structured description”

- * Vocabulary Encoding Scheme
- * String Encoding Scheme

Basis of the access point

Additions to the access point

Data provenance

Name or title (Preferred name or preferred title for Authorized access point) *

Under Authorized access point – options for change of name (Corporate Body, Family), or more than one preferred name (Person)

UPDATE...
Aggregates and shortcut relationships to creators of expressions of embodied works

Expressions of:
- a cartographic work
- a choreographic work
- computer content
- a moving image work
- a musical work
- an object work
- a vocal work
- a still image work
- a textual work

Diagram:

```
    Work 1 -- Expression 1
           
    Work 2 -- Expression 2
           
    Work 3 -- Expression 3
           
Aggregate (manifestation)
```
UPDATE...

Aggregates and shortcut relationships to creators of expressions of embodied works

Expressions of:
- a cartographic work
- a choreographic work
- computer content
- a moving image work
- a musical work
- an object work
- a vocal work
- a still image work
- a textual work

Contributor agent to aggregate (creators of expression or work)

Contributor agent of still image (aka “illustrator”)

Work groups

A common appellation for these compilations of complete works?

- Complete works
- Collected works
- All works by …
Elements: Appellation of work group

- Complete works
- Collected works
- All works by …

- Appellation of work group
- Authorized access point for work group
- Identifier for work group [e.g., ISSN-L]
As always...
more work to do!
