RSC Action Plan

• A three-year rolling plan, required by the 2018 RDA Agreement
  ▪ “Annually, the RDA Steering Committee shall submit for approval to the RDA Board of Delegates an updated three-year rolling plan, including a development programme, based on expertise and user consultation”

• Based on the Strategic Plan for RDA
  ▪ Latest version is 2020-2022 (http://www.rda-rsc.org/strategicplan20-22)
  ▪ RDA Board has started discussing the next three-year plan
  ▪ RSC will participate in finalizing the plan
  ▪ Anticipate new strategic plan by early 2023

• Recent RDA Action Plans available
  ▪ 2020-2022
  ▪ 2021-2023
  ▪ 2022-2024
But if the Strategic Plan ends in 2022...

• How to build an RSC Action Plan in this situation?
  ▪ RDA Board agreement during the initial discussion of the next Strategic Plan
    o The 2020-2022 Strategic Plan for RDA will remain in effect until the new one is finalized
    o There will be no substantive change in direction
  ▪ Focus on the existing strategic goals
    o Develop RDA as a responsive and dynamic standard
      • Principles-based standard; clear maintenance program; communicate changes
    o Increase the adoption of RDA
      • Outreach to unrepresented regions; improve the applicability of RDA for languages, specialized resources, etc.
    o Provide relevant governance
      • Develop and subsequently review policies and procedures
Structure of the RSC Action Plan

• Standing tasks, done every year
  ▪ Act as reminders of ongoing work, for the RSC, its working groups, and RDA users
  ▪ By definition, these will never be “done”

• Year 1 tasks
  ▪ Anticipated actions for the 12-month period
  ▪ Includes uncompleted actions from the previous year
  ▪ May include multi-year tasks, but broken down by year (e.g., year 1 = begin; year 2 = continue; year 3 = complete)

• Year 2 and Year 3 tasks
  ▪ Less specific; fewer entries
  ▪ More uncertainty as to timing
Comparison: 2022 Tasks

• 2020-2022 Plan
  ▪ Review status of countdown clock and community implementations of RDA
  ▪ Further develop Nomen and Timespan instructions

  ▪ Be alert to developments with ISSN and ISBN standards and impact on harmonizing with RDA
