Abstract

This revised proposal incorporates changes suggested in the responses to RSC/MusicWG/3

Summary of revisions

6.15.1.1: The scope now reflects the text as it appears in the Toolkit (as of 22 October)

6.15.1.3 paragraph 1

- The phrase “controlled list of terms” has been replaced with “term from a standard list.”
- The phrase “most specific term possible” has been replaced.
- The Working Group did not agree with ALA’s suggestion for including the proposed Tools tab resource in its exemplars of standard lists. The Working Group believes that the proposed Tool is a more a set of suggestions and cannot be compared to the UNIMARC list or LCMPT.
- The Working Group disagrees with ALA’s suggestion that the phrase “if available” be deleted. This is standard boiler plate in RDA and we can see no reason as to why it should be omitted in this case.

6.15.1.3 paragraph 2

- The examples of terms in a) has been modified as suggested by LC.
- The Working Group did not agree with ALA’s suggestion for adding –s to the examples. This category is referring to a medium of performance where only the
general type of instrument or voice is known. The Working Group has modified the text to make this clearer.

6.15.1.3 paragraph 3

- If LC/2 is accepted, the Working Group concurs that this paragraph should be deleted.

6.15.1.3 paragraph 4

- The 1st sentence has been shortened.

6.15.1.3 paragraph 5

- The Working Group believes that the positioning of this paragraph is acceptable, however we will defer to those who are better positioned to make such decisions regarding the style of RDA.

6.15.1.4

- The phrase “the names of” has been replaced by “terms for.”
- The sentence referring to 6.15.1.6 has been removed.
- The Working Group does not agree with the suggestion in the Europe response to treat ad libitum instruments as a special kind of alternative instrument. This is a community-level decision.
- The question raised by ALA concerning the use of singular or plural has not been addressed in this instruction. The Working Group will defer to the RSC on this matter.
- The suggestion from the Europe response to have an Optional Omission to not apply the instruction has not been added, pending a decision regarding whether such omissions are actually needed. See section 6.15.1.5 below.

6.15.1.5

- The phrase “the names of” has been replaced by “terms for.”
- The sentence referring to 6.15.1.6 has been removed.
- The question raised by ALA concerning the use of singular or plural has not been addressed in this instruction. The Working Group will defer to the RSC on this matter.
- LC suggested that the Optional Omission could be deleted in this instruction, because the instruction could be applied or not applied based on agency decision. The Working Group feels that this is an issue that has wider implications beyond
this set of instructions. If what LC is suggesting is true, then there is no need for any of the instructions in RDA to have options to apply or not to apply the instruction. Because this is a potentially unresolved issue, the Working Group has retained the optional omission for the time being.

6.15.1.6

- Sentence 1 has been revised.
- The list of instructions has been shortened to reflect ALA’s suggestion that 6.15.1.6.3 be made an Exception to 6.15.1.6.1.

6.15.1.6.1

- ALA’s suggestion for 6.15.1.6.3 to be an Exception in this instruction has been added.
- The phrase “or performer” has been added to the Optional Omission.
- The Working Group has not provided guidance regarding when parts or performers should be recorded, as suggested in the Europe response. The Working Group believes that such situations are better addressed in community guidelines.

6.15.1.6.2

- The Examples suggested by CCC have been incorporated, but with some slight changes.

6.15.1.6.3

- The instruction has been deleted and moved to 6.15.1.6.1 as an Exception, as suggested in the ALA response.

6.15.1.6.4

- The instruction has been renumbered as 6.15.1.6.3.
- The phrase “type of” has been added to the instruction.
- The wording of the Optional Omission has been changed.

6.15.1.6.5 and 6.15.1.6.6

- The numbering of the instructions have been changed to 6.15.1.6.4 and 6.15.1.6.5.
- The suggestion from the Europe response to have Optional Omissions to not apply the instructions have not been added, pending a decision regarding whether such omissions are actually needed. See section 6.15.1.5 above.
Appendix

- The small change suggested by CCC has been added.

Pitch and Range

- The Working Group has not added an instruction concerning whether the pitch or range of an instrument should be included in the term used for that instrument, as suggested in the Europe response. The vocabulary used for medium of performance terms will make the determination whether or not key or range is a part of the term for the instrument.

Changes

Marked-up version (based on Music WG text; 6.15.1.1 reflects Toolkit version as of 22 October)

6.15 Medium of Performance

6.15.1.3 Recording Medium of Performance

Record an appropriate term for an instrument, voice, ensemble, or another medium of performance using a controlled list of terms term from a standard list, if available. If such a list is not available, see the listing of medium of performance terms on the Tools tab of the RDA Toolkit: Medium of Performance. Record as many terms as are applicable to the resource being described, such as: the most specific term possible. This can be:
