

An RDA
and LOD
project at
URBE
Consortium

RDA in Europe Meeting
2021-09-14
Stefano Bargioni
bargioni@pusc.it

URBE (*) libraries

18 academic ecclesiastical libraries

All of them officially adopted RDA in March 2017 (**)

16 libraries joined the Parsifal project

The Parsifal project is in a test phase

even its name and logo are yet unofficial

* URBE = **U**nione **R**omana **B**iblioteche **E**cclésiastiche

libraries

Library Systems in URBE

Parsifal is a project of the SHARE family by AtCult/Casalini like Share-VDE and Share Catalogue

Name	#	contribution to clusters *
OliSuite	10+2	headings + authorities
Koha	2	authorities
Aleph	1	
Libero	1	
Total	16	

* other than access points of bibliographic records

Parsifal figures as of now

Bibliographic records 2,677,373

Name clusters	856,568
Title clusters	1,932,239
Publisher clusters	243,153

Purposes

Parsifal will (try to)

- publish the catalogs of the URBE consortium in a compact and innovative way thanks to clusterization down to the bibliographic level
- improve the use of RDA in bib and auth records (application profile)
- improve quality of access points, starting from names and works
- introduce a new level of cooperation among our cataloguing agencies, respecting nature and differences of each institution
- introduce new URI's for ecclesiastical entities, especially religious corporate names
- cooperate with NSBNCF Nuovo Soggettario Biblioteca Nazionale Firenze
- ...

Thanks for your attention
