# New RDA Toolkit – under the RESOURCES tab

The screenshot displays the RDA Toolkit interface. At the top, there is a navigation bar with four tabs: ENTITIES, GUIDANCE, POLICIES, and RESOURCES. The RESOURCES tab is currently selected and highlighted with a yellow underline. Below the navigation bar, a dropdown menu is open, listing several options: Glossary, Vocabulary Encoding Schemes, Community resources, Revision History, Original Toolkit, and AACR2. A red arrow points to the 'Community resources' option. In the background, the 'Introduction to RDA' page is visible, showing the breadcrumb 'Guidance > Introduction to RDA', the title 'Introduction to RDA', and the sub-section 'Purpose and scope'. The text under 'Purpose and scope' reads: 'RDA: Resource Description and Access is a package of data elements, guidelines, and instructions for creating library and cultural heritage metadata that are well-formed according to international models.'

# Under construction

## Community resources

This area of [RDA toolkit](#) contains content that is not appropriate for incorporation with the main guidance and instructions.

There are several reasons for this:

- The utility of the content is restricted by local bibliographic and cultural conventions.
- The potential scale of the content may impair the functionality of the Toolkit.

Community resources is subarranged into two areas:

- [Community refinements](#)  provides additional guidance and instructions for existing RDA elements that are applicable to specific communities
- [Community vocabularies](#)  provides controlled terms for use as values of specific RDA elements using specialized community-based vocabularies or language-based vocabularies.

## Community resources

This area of [RDA toolkit](#) contains content that is not appropriate for incorporation with the main guidance and instructions.

There are several reasons for this:

- The utility of the content is restricted by local bibliographic and cultural conventions.
- The potential scale of the content may impair the functionality of the Toolkit.

Community resources is subarranged into two areas:

- [Community refinements](#)  provides additional guidance and instructions for existing RDA elements that are applicable to specific communities

- [Community vocabularies](#)  provides controlled terms for use as values of specific RDA elements using specialized community-based vocabularies or language-based vocabularies.

# Landing page for *Community vocabularies*

[Resources](#) > [Community resources](#) > [Community vocabularies](#)

## Community vocabularies

These vocabularies contain controlled terms for use as values of specific RDA elements.

The vocabularies are not maintained as part of RDA, but are pertinent to [RDA toolkit](#) user communities.

Some vocabularies may have incomplete coverage, or lack definitions or notations.

Some are legacy vocabularies that contain terms that may have been used in RDA metadata statements in the past.

- [General abbreviations](#) →
- [Abbreviations for units](#) →
- [Terms in specific languages](#) →

## General abbreviations

Use the following abbreviations in normalized transcription or when constructing an access point or other *structured description*.

Term	Abbreviation
<i>alto</i>	<i>A</i>
<i>Anno Domini</i>	<i>A.D.</i>
<i>baritone</i>	<i>Bar</i>
<i>bass</i>	<i>B</i>
<i>Before Christ</i>	<i>B.C.</i>
<i>et cetera</i>	<i>etc.</i>
<i>mezzo-soprano</i>	<i>Mz</i>
<i>opus</i>	<i>op.</i>
<i>soprano</i>	<i>S</i>
<i>tenor</i>	<i>T</i>

For abbreviations of units of measurement and time, see [Abbreviations for units](#).

# It's all about “strings”...

## Terms in specific languages

Apply the following guidance when recording a transcription for an *unstructured description* in a specific language or constructing an access point or other *structured description* by applying a *string encoding scheme* to words and phrases in the language.

Unstructured – in context of transcription guidelines

Structured – in context of *string encoding schemes*

  - [Names of timespans →](#)

### Names of RDA entities

Apply the following guidance when recording a value of RDA Entity: **name of RDA entity →** or *element subtype*.

### Initial articles of names of RDA entities in French

Treat the following words and prefixes as initial articles.

- *l'*
- *la*
- *le*
- *les*
- *un\**
- *une\**

An asterisk (\*) indicates that the same form may be used in other contexts so that care should be taken to determine the meaning before treating the word as an initial article.

# Example: Icelandic names in access points

Yrsa Sigurðardóttir

## F.4 Icelandic Names

### F.4.1 Additional Instructions on Icelandic Names

For Icelandic names, record names in this order:

- a) the first given name
- b) other given names (if present)
- c) the patronymic
- d) the family name, in direct order.

If a phrase naming a place follows the given name(s), patronymic, or family name, treat it as an integral part of the name.

**Original  
Toolkit**

#### EXAMPLE

Svava Jakobsdóttir

Given name: Svava

Patronymic: Jakobsdóttir

Elín Hirst

Given name: Elín

Family name: Hirst

Bjarni Benediktsson frá Hofteigi

Given name: Bjarni

Patronymic: Benediktsson

Words denoting place: frá Hofteigi

Jóhannes úr Kötlum

Given name: Jóhannes

Words denoting place: úr Kötlum

**Variant names.** Record as variant names both a form using the patronymic as the first element and a form using the family name as the first element (see [9.2.3.10 RDA](#)).

## Access points for persons

Apply the following guidance when recording a value of Person: [access point for person](#).

Record names in this order:

1. the first given name
2. other given names (if present)
3. the patronymic
4. the family name, in direct order.

### CONDITION

A phrase naming a place follows the given name(s), patronymic, or family name.

### OPTION

Treat the phrase as an integral part of the name.

Record variant access points that include:

- a form using the patronymic as the first element and
- a form using the family name as the first element

(see Person: [variant access point for person](#)).

# New Toolkit

## Terms in Icelandic

*Entity:* **Person**

*Element:* **Access  
point for person**

# RDA/PS project update (March 2021): LC/PCC policy statements in the Toolkit

Melanie Polutta

LC representative to NARDAC

# What is the project?

Changing our documentation to work with the RDA Toolkit

# Who is working on it in LC?

- Project manager: Judith Cannan, Chief of PTCP
- Project lead: Melanie Polutta (PTCP/CTPS)
- Project management resource: Ivey Glendon (PTCP/CPPS)
- Assignment manager: Clara Liao, Section Head of PTCP/CTPS
- PTCP members: Paul Frank, Manon Th eroux, Veronica Ranieri, Les Hawkins (retired), Ivey Glendon, Dorie Kurtz
- SCD/MD: Damian Iseminger
- ABA: Jacque Brellenthin, Sarah Byun (through Dec 2020), Steven Folsom, Bill Robboy (through Dec 2020), Trina Soderquist, Jessica Zieman
- Outside ABA: special format catalogers that we bring in for consultation

# LC-PCC PS Progress: Analyzing PSs

- 3 working spreadsheets :
  - ❖ The team analyzed 2232 original RDA LC-PCC policy statements
  - ❖ The team has written approximately 9000 new LC-PCC policy statements that are in harmony with the official RDA Toolkit terminology
  - ❖ At this stage, over 9000 new LC-PCC policy statements have been reviewed

# LC-PCC PS Progress: DITA Work

## title proper

Select Policy Statement Set (2)

LC-PCC PS

### Definition and Scope

A nomen that is a title of manifestation that is selected for preference in a specific application or context.

An alternative title is treated as a title proper if it is the only title appearing in the manifestation.

Element Reference

Create Link

URL

e3e9c0e-3113-469b-9d0e-0b21d72112d1

Copy

### Prerecording

A *title proper* does not include:

- Manifestation: [other title information](#)
- Manifestation: [parallel other title information](#)

A file name or data set name is not considered a *title proper* unless it is the only title appearing in the manifestation.

## LC-PCC

### LC/PCC Core

LC/PCC practice: In most cases, record the title proper in such a way that definite and indefinite articles at the beginning of the title

```

# LC-PCC PS Progress: DITA Batchloading

- Melanie Polutta worked closely with LC ILS colleague and created batch processing programs (combination of XSLT, Python, and Microsoft Excel) which allow hundreds of policy statements to be bulk loaded to the official RDA Toolkit.
- By December 2020, over 6400 PSs were uploaded to ALA CMS system and published in draft form together with the official release of the Toolkit.
- For the coming official update (April 2021), all LC-PCC policy statements (approximately 10000+ PSs) will be uploaded to the Toolkit.

# Handling RDA PS Feedback/Comments

- Two policy statement forms for feedback
  - In the design stage and will require LC/PCC approval

# Handling RDA PS Feedback/Comments

- One form is for errors in policy statements, such as typos, grammatical issues, etc.
  - LC will not provide regular feedback on those reports.
- The other form is for proposals related to the policy statements.
  - This form with comments will be part of a larger process that includes review by an LC/PCC panel before any action is taken.

# Metadata Guidance Documentation

- Work on the plan after April's update
- Can be carried out by multiple institutions
- Collaborate with PCC
- Ideally the work may start in May 2021 and be completed by November 2021

# Policy statements

## LC-PCC

LC/PCC practice: Apply the option. See  
Manifestation: [Link](#).

---

[Send to Back](#)

## LC-PCC

LC/PCC practice: Apply the option. In most cases,  
do not devise a collective title if the manifestation  
does not have one. See Manifestation: [Link](#).

LC practice: For archival moving image resources,  
Cataloger's judgment.

---

# Editorial decisions

- Context of Coreness
  - Policy statements for options should be evaluated within the coreness of the element

# Editorial decisions: title proper is core

## Alternative titles proper

### CONDITION

A value of Manifestation: **title of manifestation**  includes one or more *alternative titles*.

### OPTION

Record a value that includes all of the alternative titles.

[Send to Back](#)

### LC-PCC

LC/PCC practice: Apply the option.

---

# Editorial decisions: date of production is not core

## CONDITION

A date is represented in different calendars on a manifestation.

## OPTION

Record one or more values separately in the order indicated by the sequence, layout, or typography of the *source of information*.

## LC-PCC

LC/PCC practice: Apply the option.

---

[Send to Back](#)

# Editorial decisions

- Preferring an “Situation, decision” structure for writing policy statements
- Preferring IF/THEN in place of lists

# Editorial decisions: condition/decision

## LC-PCC

LC/PCC practice: For earlier titles of an electronic serial, moving image resources, and if an aggregator presents a range of issues of a serial and does not retain earlier titles, apply the option.

LC/PCC practice: For serials, including rare serials, apply the option to initialisms/acronyms of the title proper. For rare serials, also apply the option to record it

[Send to](#)

# Editorial decisions: IF/THEN in place of lists

[Send to Back](#)

## LC-PCC

LC/PCC practice: IF: the work is part of a monographic series or a multipart monograph and all parts are individually described, yet lack a title of part or a distinctive title of part, THEN: transcribe a title that uses the common title in conjunction with the numbering and/or dependent title. Do not record a Manifestation: series statement.

---

# Editorial decisions

- Do not record. Evaluate later.
  - Why? Because we don't have decisions yet.

# Editorial decisions: do not record

---

# Update from Library and Archives Canada

Thi Bao Tran Phan

Library and Archives Canada

NARDAC? RSC? CCC? ALA? PCC?

Huh?

The structure of the RDA operation

NARDAC Forum

29 March 2021

Robert L. Maxwell

ALA co-representative to NARDAC

# Who's in charge here, anyway?

## Canadian Committee on Cataloguing

**CC:DA | COMMITTEE ON CATALOGING: DESCRIPTION & ACCESS**

# NARDAC

- The North American RDA Committee
- Represents the interests of North American catalogers, excluding Latin America and the Caribbean, i.e., the United States and Canada

# NARDAC

- Membership:

- 2 members from American Library Association
- 2 members from Canadian Committee on Cataloguing

2 members from The Library of Congress

1 of these members is the NARDAC representative to the RDA Steering Committee

# NARDAC

- Current composition:
  - American Library Association representatives

- Stephen Hearn (chair of NARDAC)
  - Robert L. Maxwell

- Canadian Committee on Cataloguing representatives

- Thomas Brenndorfer (NARDAC representative to RSC)

- Thi Bao Tran Phan (from Library and Archives Canada)

- Library of Congress

- Melanie Polutta (NARDAC coordinator of web content)
  - Clara Liao

# American Library Association

- U.S. catalogers are represented and make proposals through ALA
  - The principal committee involved at ALA is CORE/Committee on Cataloging: Description and Access
  - CC:DA meets twice a year but works throughout the year
  - Current chair is Glen Wiley
  - <https://alcts.ala.org/ccdablog/>

# Canadian Committee on Cataloguing

- Canadian catalogers are represented and make proposals through the Canadian Committee on Cataloguing
  - CCC meets two to four times a year but works throughout the year
  - Current chair is Sue Andrews
  - <https://www.bac-lac.gc.ca/eng/services/cataloguing-metadata/Pages/canadian-committee-cataloguing.aspx>

# R | D | A

Steering Committee

- Going the other direction, NARDAC is represented in the RDA Steering Committee by the NARDAC representative, Thomas Brenndorfer.

- **RSC Chair**, Kathy Glennan
- **RSC Secretary**, Linda Barnhart
- **Regional Representatives**
  - **Europe**, Renate Behrens
  - **North America**, Thomas Brenndorfer
  - **Oceania**, Melissa Parent
- **RDA Examples Editor**, Honor Moody
- **Technical Team Liaison Officer**, Damian Iseminger
- **Translations Team Liaison Officer**, Daniel Paradis
- **Wider Community Engagement Officer**, Ebe Kartus

- The intent is to have representatives from six regions:
  - Africa
  - Asia
  - Europe
  - Latin America and the Caribbean
  - North America
  - Oceania

# RDA Board Members

- The Copyright Holders
  - American Library Association (ALA) (currently no representative)
  - Canadian Federation of Library Associations (CFLA) (Christine Oliver, current Board chair)
  - Chartered Institute of Library and Information Professionals (CILIP) (John Trevor Allen)
- RDA Steering Committee Chair (Kathy Glennan)
- ALA Publishing Representative (James Hennelly)

# RDA Board Members

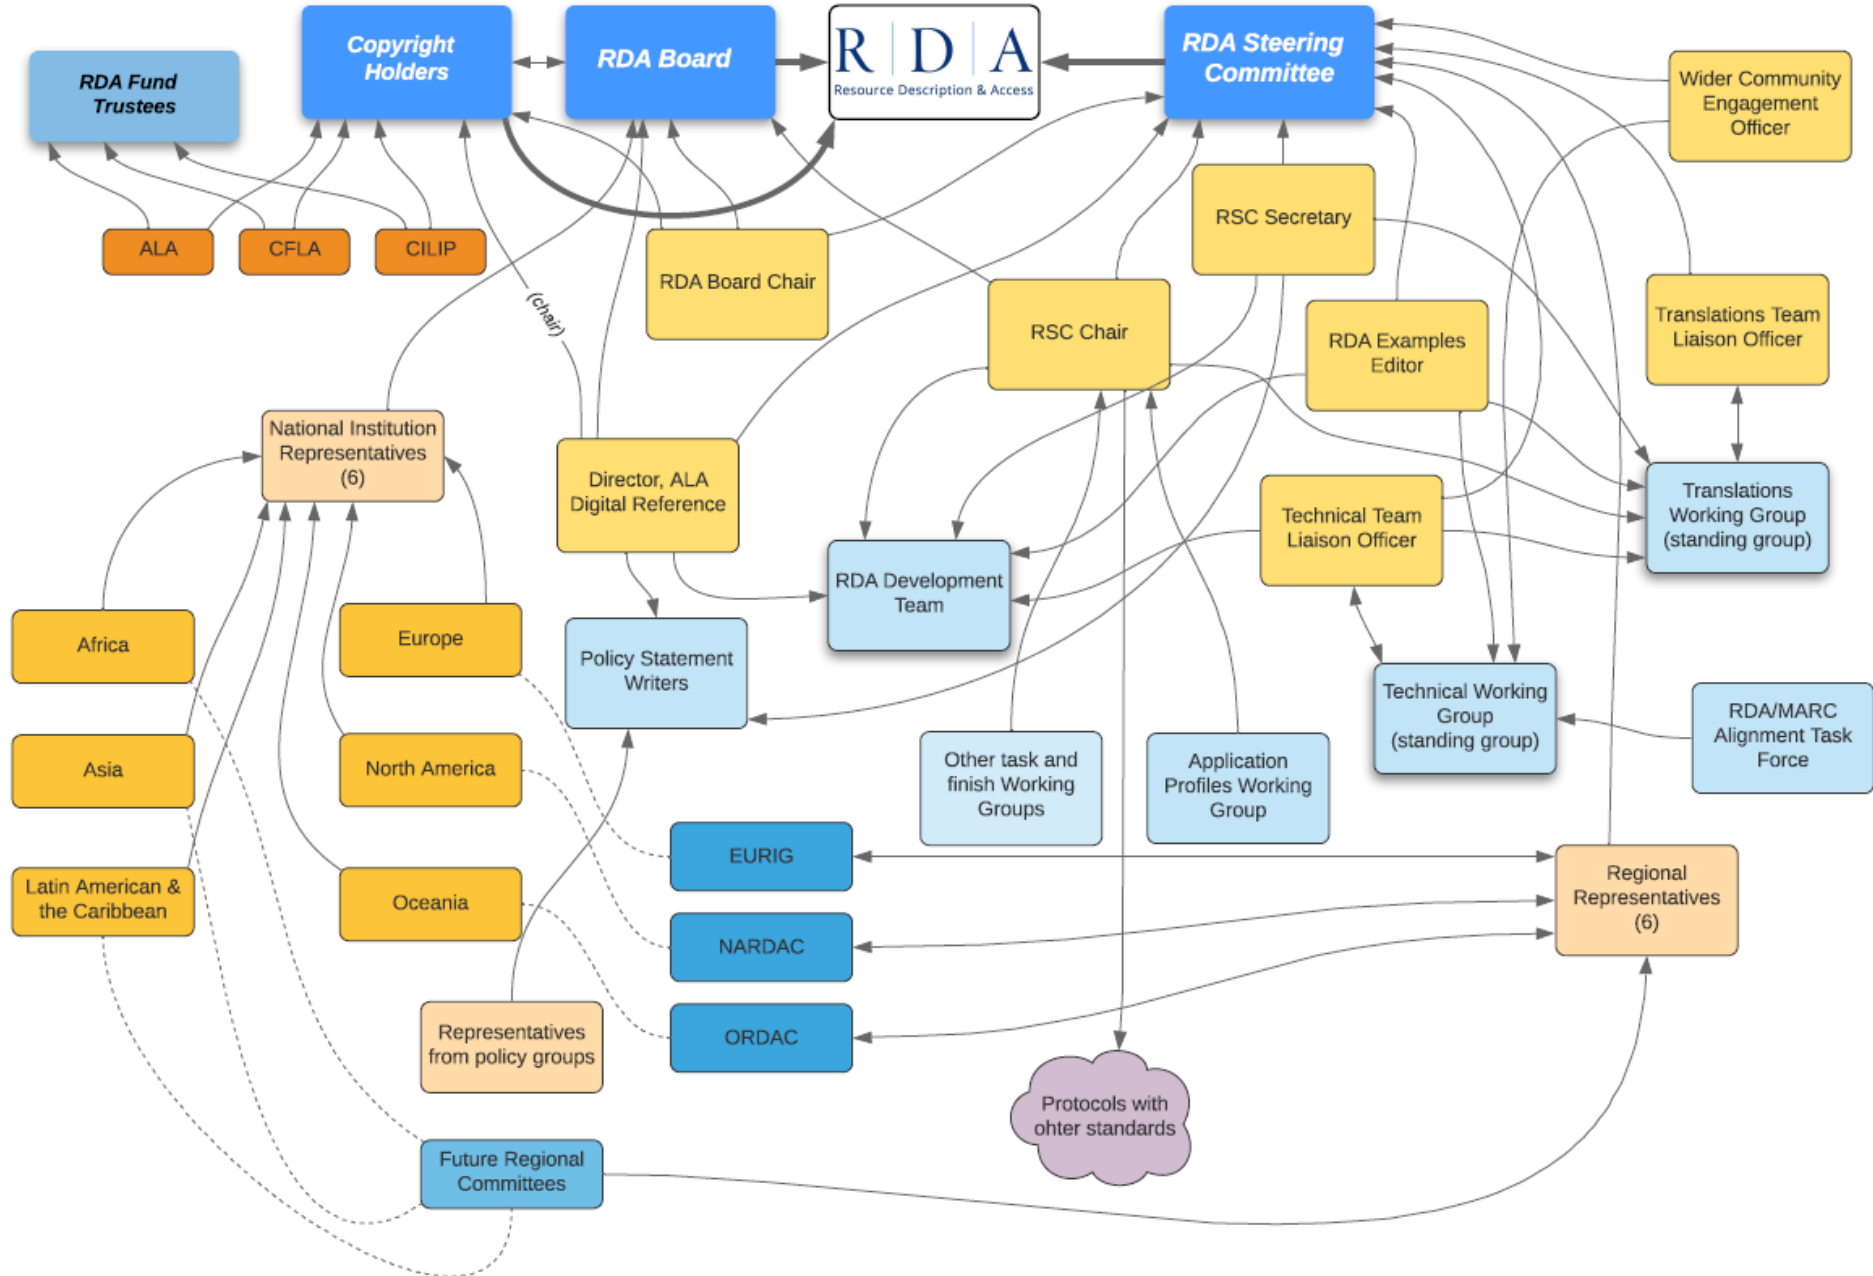

- National Institution Representatives
  - **Africa** (Marietjie de Beer, National Library of South Africa)
  - **Asia** (Haliza Jailani, National Library Board, Singapore)
  - **Europe** (Christian Aliverti, Swiss National Library)
  - **Latin America and the Caribbean** (Filiberto Felipe Martinez Arellano, Biblioteca Nacional de México)
  - **North America** (Merideth Fletcher, Library and Archives Canada)
  - **Oceania** (Kim Gutchlag, National Library of New Zealand, New Zealand)

- Contrasting responsibilities of RSC and the Board
  - The Board and the Copyright Holders set the *strategic direction* for RDA. They approve major undertakings such as the 3R project recently concluded
  - The RDA Steering Committee is responsible for the *development* and *content* of the RDA Standard, including all revisions, additions, and other changes.

# RDA Interrelationship Diagram

Kathy Glennan | March 24, 2021

- PCC has a much narrower constituency than NARDAC
  - Only the subset of U.S. and Canadian catalogers that work for a PCC institution
- PCC also has a much broader constituency than NARDAC
  - Many PCC institutions are outside the United States and Canada

- Policy Committee
  - PCC Chair, Melanie Wacker (with chair-elect and past chair)
  - Permanent members
    - British Library ; Library of Congress ; Library and Archives Canada ; OCLC
  - Other members
    - Several “at-large” members representing
      - BIBCO
      - CONSER
      - NACO
      - SACO
    - Standing Committee Chairs
      - Standing Committee on Applications
      - Standing Committee on Standards
      - Standing Committee on Training
- A number of advisors and liaisons from other organizations

Program for  
Cooperative Cataloging

BIBCO / CONSER / NACO / SACO

# Organization

- Steering Committee
  - PCC Chair, Melanie Wacker (with chair-elect and past chair)
  - Representatives from
    - Library of Congress
    - OCLC
    - PCC Secretariat

## Program for Cooperative Cataloging

BIBCO / CONSER / NACO / SACO

- Although many non-PCC institutions within the realm of NARDAC choose to follow PCC policies, PCC only has authority to make policy for contributions to PCC programs

# NARDAC contrasted with PCC

- The product of NARDAC (with the RDA Steering Committee) is a set of *guidelines* and *instructions* for metadata creation: *Resource Description & Access*
- The product of PCC is *metadata*, as well as some metadata standards (such as vocabularies, workflows, best practices) outside RDA
- Both produce training, but training isn't the main product or purpose of either entity

# Relationship of NARDAC and PCC

- PCC does not have a direct relationship to NARDAC, i.e., there is no PCC representative to NARDAC
- PCC has an indirect relationship via its member institutions (one of which is the Library of Congress)
  - LC has a direct relationship to NARDAC
  - Other US/Canadian PCC institutions have an indirect relationship via ALA or CCC

# PCC and RDA: activity

- Current:
  - PCC URIs in MARC Pilot
  - LC-PCC Policy Statements
- Future:
  - Documenting PCC policies on string encoding schemes, which are being removed from RDA proper

Thank you!

# RSC Operations in 2021: A Return to “Normal”

Kathy Glennan

Chair, RDA Steering Committee

Head, Cataloging & Metadata Services  
University of Maryland Libraries

# Today's Topics

- 2021 highlights from the RSC Action Plan
- RSC meetings
  - Schedule
  - Agendas
- RDA change proposal process
  - Fast tracks
  - Discussion papers
  - Proposals

# RSC Plans for 2021

- [RSC Action Plan 2021-2023](#): Highlights
  - Continue review of the Resources tab and development of Community resources and Community vocabularies
  - Resolve pseudo-element issues [primarily original RDA 6.28-6.31]
  - Review performance aggregates (amalgamation instructions) and initiate cleanup
  - Begin BIBFRAME mapping
  - Establish new Working Groups:
    - Extent
    - Place/jurisdiction
    - Names of corporate bodies in more than one language
    - Religious content
  - Be responsive to user feedback

# Quarterly Meeting Schedule

- Asynchronous meetings
  - January 11-14, 2021
  - April 12-15, 2021
  - July 12-15, 2021
  - Deadline for submitting agenda documents:  
~3 weeks before the meeting starts
- In person (?) meeting
  - October 11-15, 2021
    - Note: dates not firm; may change based on travel restrictions, a changed meeting location, or need to shift to a virtual meeting
  - Deadline for submitting agenda documents:  
~3 weeks before the meeting starts

# RSC Meeting Agendas

- Asynchronous meeting agendas may include
  - Brief reports from members on their activities since the last meeting
    - Including information sharing from the regions
  - Review and approval of documents developed since the last meeting
  - Discussion papers framing future work
  - Proposals
  - Examples: January 2021 agenda included
    - Review/approval of rolling 3-year Action Plan
    - Review/approval of updated RSC Operations documents
    - Recommendations for moving forward on Pseudo-elements
    - Discussion of next steps with Community resources

# RSC Meeting Agendas

- In-person meeting agendas include
  - Formal reports from members, working groups, and liaisons to outside groups
  - Discussion papers and change proposals that would benefit from a more focused discussion
  - Laying the groundwork for the next iteration of the rolling 3-year Action plan
  - Status review/update of action items assigned to RSC members
- If the “in-person” meeting needs to be held virtually
  - Meeting length will expand from 1 to 2 weeks
  - Meeting style will blend synchronous and asynchronous approaches

# RDA Change Proposal Process

- Still in a test-and-adjust phase
- Guidance to communities
  - Detailed process in *Policies and Procedures for Updating RDA Content* ([RSC/Operations/4](#))
  - Formatting information in *Guidelines for Proposals, Discussion Papers, and Responses to Them* ([RSC/Operations/5](#))
- Three possibilities
  - Fast track
  - Discussion paper
  - Proposal
- Steps
  - Initial paper
  - RSC discussion and decision
  - Implementation, when applicable

# Fast Track Proposals

- Suggestions for improving consistency in wording, additions to vocabularies, and other changes without wider impact
  - Capable of inclusion in RDA without negative impact on its users
  - Must be technically compatible with RDA
    - Can confirm with RSC Technical Working Group
- May be submitted anytime to RSC Chair and RSC Secretary
- Originate with
  - RSC members
    - Via working groups, regions, personal observations, etc.
  - Users
    - Primarily via the “Submit Feedback” link in the Toolkit

# Fast Track Proposals

- Normally discussed in the order received
- Short decision-making time frame: 2 weeks
  - Currently only considering one (or one grouping) at a time
- Not publicly posted on RSC website, no formal responses
- Decisions made by RSC voting members
  - Regional representatives may consult with their regions at their discretion
  - Choices: Accept / Revise / Refer to the proposal process / Reject
  - Simple majority required to pass
- Will be implemented in future Toolkit release
  - May not be the “next” one based on timing
- No substantive differences from pre-3R process

# Fast Track Proposals

- Approved so far this year
  - Editorial consistency – Elements
    - Changed “that reflects” → “reflecting” in definitions for 4 categorization elements
    - Clarified definitions for *date of capture*, *polarity*, and *bibliographic format*
    - Revised 5 “letterer agent” elements for consistency and clarity
  - Clarity – Guidance chapter
    - Modified two paragraphs in Fictitious and non-human appellations chapter

# Discussion Papers

- Raise topics for RSC consideration to suggest a need for investigation of issues related to RDA development, to identify issues related to other rule-making bodies, etc.
  - Done for complex proposed changes before going through the formal proposal process
    - Especially useful when more than one approach/solution is possible
    - Same as “briefing papers”, used near the end of the 3R Project
- May be submitted anytime to the RSC Chair and RSC Secretary
  - Will be scheduled for an upcoming RSC meeting
    - This may not be the “next” meeting, based on the RSC’s workload and/or the complexity of the topic

# Discussion Papers

- Originate with RSC members, RDA regional groups, or RDA users (via the Wider Community Engagement Officer)
  - RSC may request such discussion papers
  - Before submission, proposers consult the RSC Technical Working Group to confirm that recommendations are technically compatible with RDA
- Posted publicly on RSC website, with information about when it will be discussed
- RSC members may consult with each other before the official RSC meeting
  - These discussions will not be captured formally

# Discussion Papers

- Before the RSC meeting
  - Regional representatives consult with the bodies they represent (NARDAC, EURIG, ORDAC)
    - Each region develops its own process for collecting feedback
    - For example, NARDAC will seek feedback from ALA, CCC, and LC
  - All regional bodies expected to respond in some way
    - Looking to minimize the amount of effort and time frame for this step
    - Any formal response posted publicly on the RSC website
      - Need to have a response to each question in the paper

# Discussion Papers

- Based on discussion, may be
  - Referred back to the proposer/proposing group for more development or investigation based on the RSC discussion; may include developing a formal proposal
  - Deferred to a later date
  - Rejected
- Outcome of decisions will be in the meeting minutes
  - And shared with the proposing group as appropriate

# Discussion Papers

- Differences from the pre-3R era
  - Accepted anytime
  - Could be considered at any of the quarterly RSC meetings, not just the in-person meeting
  - Consultation among RSC members permitted in advance of the meeting
  - Development of a log to indicate briefly the agreement, disagreement, or general comments for discussion in advance of the meeting

# Proposals

- Formal recommendations to change, enhance, or delete RDA content
- No requirement for a change proposal to start out as a discussion paper
  - But that step is recommended for complex topics
- May be submitted anytime to the RSC Chair and RSC Secretary
  - Will be scheduled for an upcoming RSC meeting
    - This may not be the “next” meeting, based on the RSC’s workload and/or the complexity of the topic

# Proposals

- Originate with RSC members, RDA regional groups, or RDA users (via the Wider Community Engagement Officer)
  - RSC may request such proposals
  - Before submission, proposers consult the RSC Technical Working Group to confirm that recommendations are technically compatible with RDA
- Posted publicly on RSC website, with information about when it will be discussed
- RSC members may consult with each other before the official RSC meeting
  - These discussions will not be captured formally

# Proposals

- Before the RSC meeting
  - Regional representatives consult with the bodies they represent (NARDAC, EURIG, ORDAC)
    - Each region develops its own process for collecting feedback
    - For example, NARDAC will seek feedback from ALA, CCC, and LC
  - All regional bodies expected to respond in some way
    - Looking to minimize the amount of effort and time frame for this step
  - Formal responses posted publicly on the RSC website
    - Must contain explicit statement of acceptance/non-acceptance
    - Need to have a response to each recommendation in the proposal

# Proposals

- During RSC meeting
  - May be withdrawn by the proposer
  - Otherwise will have discussion and vote
    - Choices: Accept / Revise / Refer for more work / Reject
    - Simple majority needed to pass
- Outcome of decisions will be in the meeting minutes
  - And shared with the proposing group as appropriate
- Will be implemented in future Toolkit release
  - May not be the “next” one based on complexity of making the agreed-upon changes

# Proposals

- Changes from pre-3R procedures
  - Accepted anytime
  - Could be considered at any of the quarterly RSC meetings, not just the in-person meeting
  - Consultation among RSC members permitted in advance of the meeting
  - Development of a log to indicate briefly the agreement, disagreement, or general comments for discussion in advance of the meeting
  - Looking to minimize efforts from regional representatives
    - No need for a formal response that simply says, “We agree.”

# In the Works

- More fast track proposals
  - Coming at a steady pace
- Formal proposals
  - NARDAC's Curator agent proposal
    - Undergoing review by RSC Technical Working Group before being sent on for RSC consideration
    - May be on RSC's July agenda
  - Renaming an element?

# More Information

# • Update from ALA Digital Reference

James Hennelly, Director

# 3R Project

- Completed with December 15<sup>th</sup> Release
- Accomplished Significant Goals
  - ✓ Responsive Design
  - ✓ AA Accessibility
  - ✓ Implementation of IFLA Library Reference Model
  - ✓ Rebuilt structure
  - ✓ Integrated Content

# Next Steps

- Work Continues on Translations
  - Norwegian complete
  - Finnish soon
  - Others uncertain
- Same for Policy Statements
  - BL and LC-PCC continue to build
  - MLA BP beginning work in the CMS
- Further Toolkit Development
  - Visual Browser
  - Mapping Tool

# Orientation Efforts

- Continuing RDA Lab Series
- Toolkit Demos
- YouTube Channel
- Print Products
  - RDA Glossary
  - Introducing RDA: A Guide to Basics after 3R
  - RDA Workbook (to come)
  - RDA Essentials (to come)
- Submit Feedback Button

.

# RDA and Encoding Formats

Stephen Hearn, University of Minnesota  
NARDAC chair

# Content standard vs encoding

- Content standard tells what to record and how
- Encoding formalizes analysis, terminology, and syntax
- RDA builds on RDF to provide both

# Resource Description Framework

- Basis of linked data
- Simple analysis, simple syntax
  - Subject / Predicate / Object
  - Each expressed with URI or string
- Easy to compare statements made in RDF

# Maps and alignments

- RDA Registry includes:
  - RDA as open linked data vocabulary
  - Maps and alignments with encoding formats
- Same vs. different
  - Encodings reflect conceptual models
  - Conceptual models differ

# Conformance

- **Defined in the RDA Guidance section on Well-formed RDA**
- *A metadata statement* is conformant with RDA if all of the following requirements are met.
  - The statement is well-formed
  - The statement describes an instance of an RDA entity
  - The statement records a value of an RDA element assigned to the entity
  - The statement records a value that is compatible with the RDA guidance and instructions
- A well-formed RDA metadata statement can be formatted in a basic subject-predicate-object syntax, where the subject is the entity being described, the predicate is the characteristic being recorded, and the object is the recorded value of the characteristic.

# MARC to RDA conversion

- MARC tagging and relators taken together
- 700 1 \$a \$4 aut = has author person  
<http://rdaregistry.info/Elements/w/P10436>
- Conversion of some MARC metadata to conformant RDA seems possible
- MARC encoding expresses constraints similar to RDA

# Entity type question

- RDA entity descriptions do not include an element to declare entity class
- Entity type is declared by predicates used to describe the entity
- Why?
  - Simplifies mapping and alignment?
  - Avoids examining instance declarations of class?
  - Enables use wider use of linked data descriptions?

# Questions?
