 - Internationalization Principles posted 2020

New Toolkit

- RSC
 - Change in RSC meeting schedules
 - 2019 draft report
 - “Western and Christian Bias in the 3R Toolkit”
 - 2019 RSC meeting outcomes:
 - “The RSC is increasingly aware of and is taking steps to remove the Anglo-American focus of the content.”

What does internationalization look like?

11

Governance

- Multiple asynchronous RSC meetings
- WCEO position
- Flexibility in boundaries of RDA regions

Official RDA Toolkit

- RSC
 - Boilerplate text
 - Legacy Anglo-American guidelines moved out of base RDA
 - Fast tracks proposals

Working Groups

Daniel Paradis, RSC Translation Team Liaison Officer, ex officio

C.0 Scope

This appendix lists initial articles that are to be omitted when applying the alternative instructions to record titles for works and names of persons, corporate bodies, and places. The list includes initial articles in a selected number of languages.

C.2 Articles Listed by Language

An asterisk (*) after an article indicates that the same form is also used in other contexts (e.g., the cardinal numeral *one*, a demonstrative pronoun). For those words, take care to determine the meaning before omitting the word.

LC-PCC PS

This page presents content from the Anglo-American community that originated with instructions in AACR2 and original RDA. The instructions here were intended for the use of cataloguers working with materials in this language but using English as their language of cataloguing. Other instructions may need to be developed, or this page formally approved, when this language is the language of cataloguing.

Initial articles of names of RDA entities in Hebrew

Treat the following words and prefixes as initial articles.

- ן
- ha-
- he-

Why should NARDAC care?

17

Advantages of internationalization

- Over 61% of WorldCat is non-English
- Well-developed/maintained Community Resources will support data exchange
- CR section allows codification of both Anglo-American practice and local practices (win-win)
- Expanded opportunities for contributions to RDA frees up resources
